**PORTFOLIO OBJECTIVE**

The objective of the portfolio is to seek, through a combination of capital growth and income, returns above the benchmark. By adopting an investment policy using a wide range of assets and actively avoiding areas which could be deemed overvalued, a significant strength of the portfolio is the range of opportunities in which it can invest. The portfolio aims to select from a number of collective investment schemes offering capital growth with volatility comparable to the benchmark.

**ASSET ALLOCATION**

IAM 37 4.19

The value of an investment and the income from it can fall as well as rise and investors may get back less than they invested. Risk factors should be taken into account and understood including (but not limited to) currency movements, market risk, liquidity risk, concentration risk, lack of certainty risk, inflation risk, performance risk, local market risk and credit risk. This communication does not purport to be all-inclusive or contain all of the information which a proposed investor may require in order to make a decision as to whether to invest in the Portfolio. Nothing in this document constitutes a recommendation suitable or appropriate to a recipient's individual circumstances or otherwise constitutes a personal recommendation.
