

FUND DETAILS

PORTFOLIO OBJECTIVE

The objective of the Sub-fund is to seek, through a combination of capital growth and income, returns above the IA Flexible Investment Sector (although the investment constraints of this sector do not apply to this sub-fund). By adopting an investment policy using a wide range of Assets and actively avoiding areas which could be deemed overvalued, a significant strength of the fund is the range of opportunities in which it can invest. The portfolio aims to select from a range of collective investment schemes offering capital growth with volatility comparable to the IA Flexible Investments sector. The fund's ability to access equities, fixed interest stock and currencies from across world markets provides the high degree of flexibility needed to achieve the investment objective.

IMPORTANT INFORMATION

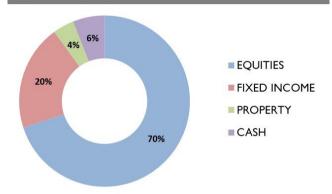

IBOSS Asset Management, the fund manager, is authorised by the Financial Conduct Authority and is subject to regulation by them. Margetts Asset Management is the authorised Corporate Director (ACD).

ASSET ALLOCATION

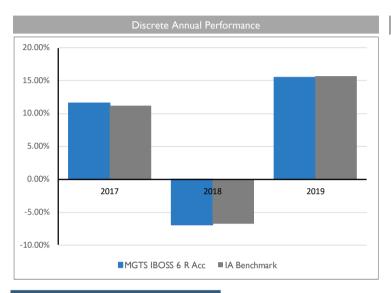

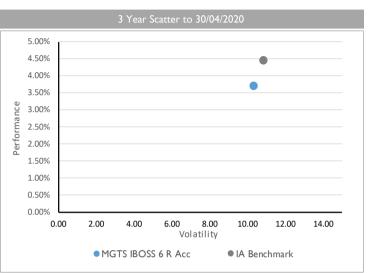

The value of an investment and the income from it can fall as well as rise and investors may get back less than they invested. Risk factors should be taken into account and understood including (but not limited to) currency movements, market risk, liquidity risk, concentration risk, lack of certainty risk, inflation risk, performance risk, local market risk and credit risk. Investors should ensure that they have read and understood the Non UCITS Retail Scheme Key Investor Information Document and Supplementary Information Document, which contain important information. A copy of these documents will be available on the website or on request from Margetts Fund Management from launch. This communication does not purport to be all-inclusive or contain all of the information which a proposed investor may require in order to make a decision as to whether to invest in the Fund. Nothing in this document constitutes a recommendation suitable or appropriate to a recipient's individual circumstances or otherwise constitutes a personal recommendation. 3 YEAR RATIO TABLE (to 30/04/2020)

	Fund	Benchmark
Alpha a measure of the fund's over- or under- performance by comparison to its benchmark	-0.18	0.00
Beta a statistical estimate of the fund's volatility by comparison to that of its benchmark	0.94	1.00
Sharpe the higher the Sharpe Ratio the better the relationship between the fund's risk and its return	0.00	0.00
Downside Risk represents an estimate on the potential loss on any investment	12.29	13.24
Volatility how widely a range of returns varied from the fund's average return over a particular period	10.30	10.81
Max Loss represents the worst running return over the period	-14.99	-15.53
Max DD represents the worst possible return over the period	-14.99	-15.53
Downside Capture represents the manager's performance in down-markets	98.17	100.00

ADDITIONAL INFORMATION

THIRD PARTY RISK PROFILES

DEPOSITARY

The MGTS IBOSS OEIC sub-fund assets are held by the depositary, Bank of New York Mellon Ltd, which is one of the biggest trustee / depositary and custodians in the world. The assets held by Bank of New York Mellon Ltd are ring fenced as a separate legal entity, with the exception of some cash which is held on deposit with the Bank of New York Mellon Ltd.

MGTS IBOSS Figures are calculated on a Total Return basis with all income reinvested, assuming income is taxed at basic rates of income tax. Past performance is no guarantee of future performance.

The value of an investment and the income from it can fall as well as rise and investors may get back less than they invested.
