

FUND DETAILS

PORTFOLIO OBJECTIVE

The objective of the Sub-fund is to seek, through a combination of capital growth and income, returns above the IA Mixed Investment 40-85% Shares Sector (although the investment constraints of this sector do not apply to this sub-fund). By adopting an investment policy using a wide range of Assets and actively avoiding areas which could be deemed overvalued, a significant strength of the fund is the range of opportunities in which it can invest. The portfolio aims to select from a number of collective investment schemes offering capital growth with volatility comparable to the IA mixed investment 40-85% Shares sector but without the constraints therein. The fund's ability to access equities, fixed interest stock and currencies from across world markets provides the high degree of flexibility needed to achieve the investment objective.
