

FUND DETAILS

PORTFOLIO OBJECTIVE

The objective of the Sub-fund is to seek, through a combination of capital growth and income, returns above the IA Flexible Investment Sector (although the investment constraints of this sector do not apply to this sub-fund). By adopting an investment policy using a wide range of Assets and actively avoiding areas which could be deemed overvalued, a significant strength of the fund is the range of opportunities in which it can invest. The portfolio aims to select from a range of collective investment schemes offering capital growth with volatility comparable to the IA Flexible Investments sector. The fund's ability to access equities, fixed interest stock and currencies from across world markets provides the high degree of flexibility needed to achieve the investment objective.

IMPORTANT INFORMATION

IBOSS Asset Management, the fund manager, is authorised by the Financial Conduct Authority and is subject to regulation by them. Margetts Asset Management is the authorised Corporate Director (ACD).
