

PORTFOLIO DETAILS

PORTFOLIO OBJECTIVE

The objective of the portfolio is to seek, through a combination of capital growth and income, returns above the IA Flexible Investment sector by adopting an investment policy using a wide range of Assets and actively avoiding areas deemed overvalued. A Key advantage to the INCOME MPS 7 portfolio is the portfolio's income focus and diverse range of investable assets. Returns should be comparable to the IA Flexible Investments sector but without the constraints of the sector.

ASSET ALLOCATION

SECTOR ALLOCATION

Historic Yield is calculated based on the underlying funds previous 12 month dividend information. The underlying portfolio charge is calculated using preferred share classes—these are subject to availability and may vary slightly between platforms. Cost caps are subject to the availability of the preferred share classes—further details are available upon request.

The value of investments may go up and down, and you may get back less than you invested originally. Risk factors should be taken into account and understood, including (but not limited to) currency movements, market risk, liquidity risk, concentration risk, lack of certainty risk, inflation risk, performance risk, local market risk and credit risk. This communication does not purport to be all-inclusive or contain all of the information that a proposed investor may require to decide whether to invest in the Portfolio. Nothing in this document constitutes a recommendation suitable or appropriate to a recipient's individual circumstances or otherwise constitutes a personal recommendation.
