

OEIC FUND RANGE

FOR PROFESSIONAL FINANCIAL ADVISERS ONLY

OVERVIEW

The IBOSS OEIC Fund Range is an open-ended multi-asset investment solution, built specifically for the financial adviser marketplace. The range consists of four risk-rated funds and retains strong similarities with the successful IBOSS Limited Portfolio Management Service (PMS).

The OEIC funds provide a practical and cost-efficient way to outsource the management of your clients' investments, whilst aligning them to their long-term investment goals. The funds are designed as core holdings for a client's ISA, investment and pension portfolios, allowing advisers to consolidate their client's investments within a tax efficient product.

The IBOSS **investment philosophy** remains the same across our investment solutions. We place an emphasis on diversification, risk adjusted returns and defensive characteristics, enabled by rigorous quantitative and qualitative research.

We aim to beat the relevant benchmarks over as many periods as possible, with less than benchmark volatility and lower drawdowns, across all risk ratings.

The portfolios are built using a fixed strategic asset allocation to match the portfolio's investment objective, the flexibility of the portfolios comes from a fund level through our tactical allocation, depending on market conditions and the appropriate risk metrics.
