eValue Mapping available upon request

Historic Yield is calculated using the underlying funds previous 12 month dividend information.

The underlying portfolio charge is calculated using preferred share classes—these are subject to availability and may vary slightly between platforms.

Cost caps are subject to the availability of the preferred share classes—further details are available upon request.

The value of investments may go up and down, and you may get back less than you invested originally.

Risk factors should be taken into account and understood, including (but not limited to) currency movements, market risk, liquidity risk, concentration risk, lack of certainty risk, inflation risk, performance risk, local market risk and credit risk.
