This communication is designed for professional financial advisers only and is not approved for direct marketing with individual clients. These investments are not suitable for everyone, and you should obtain expert advice from a professional financial adviser. Investments are intended to be held over a medium to long term timescale, taking into account the minimum period of time designated by the risk rating of the particular fund or portfolio, although this does not provide any guarantee that your objectives will be met. Please note that the content is based on the author's opinion and is not intended as investment advice. It remains the responsibility of the financial adviser to verify the accuracy of the information and assess whether the OEIC fund or discretionary fund management model portfolio is suitable and appropriate for their customer.

Past performance is not a reliable indicator of future performance. The value of investments and the income derived from them can fall as well as rise, and investors may get back less than they invested.

We provide the DFM MPS as both distributor and manufacturer. Details of our target market assessment can be found in our compliance investment procedures, available upon request. Each fund will be assessed independently, but it is highly unlikely that any one fund held in our portfolio will meet the target market in isolation—detail of why the inclusion collectively will be suitable is included within our research.
