

PASSIVE MANAGED PORTFOLIO SERVICE

FOR PROFESSIONAL FINANCIAL ADVISERS ONLY

OVERVIEW

The IBOSS Passive Managed Portfolio Service (Passive MPS) is an actively managed discretionary investment solution, built specifically for the financial adviser marketplace. The range consists of nine risk-rated model portfolios and an asset allocation that is closely aligned with our Core MPS. Although constructed using cost effective passive assets, the portfolios' fund holdings are actively managed by the IBOSS Investment Team.

Our passive range offers a service to clients that provides lower annual fees through its passive orientation and accommodates the more cost-conscious clients.

THE PORTFOLIOS

PORTFOLIO	BENCHMARK	defaqto RISK RATED	OCF CAP 0.14%*

RISK & RESEARCH TOOLS

AWARDS & RATINGS

PLATFORM AVAILABILITY

This communication is designed for professional financial advisers only and is not approved for direct marketing with individual clients. Past performance is not a reliable indicator of future performance and the value of investments, and the income derived from them, can fall as well as rise, investors may get back less than they invested. For more information please see the risk warnings in full on the next page.

INVESTMENT TEAM

KEY PEOPLE & PHILOSOPHY

Chris Metcalfe
Chief Investment Officer

Chris has earned a reputation for building and maintaining successful model portfolios and running a close team to ensure they maintain their professional high standards of delivering an exceptional service and well researched portfolios with a consistent good track record.

Chris Rush IMC
Investment Manager

Chris provides critique through quantitative analysis, research and one to one manager meetings, leading to specific fund recommendations. His hands on experience and technical knowledge are intrinsic components to the decision making process.

Michael Heapy IMC
Senior Investment Analyst

Michael assists with the analysis of the funds and the provision of relevant data. Michael holds an IMC and the CFA UK Certificate in ESG Investing. He has also passed the J10 exam which awards him the certificate in discretionary investment management.

Rebecca Anscombe
Head of Operations & Systems

Rebecca creates, coordinates and implements the development of internal systems and processes within the Investment Team. Having passed R01 and R02, Rebecca has also completed IMC unit 1 and is now studying part 2 of the certificate.

Jack Roberts IMC
Investment Analyst

Jack's core responsibilities include portfolio performance reporting, as well as fund and competitor comparison analysis. Jack is IMC qualified.

The **IBOSS investment philosophy** remains the same across our investment solutions. We place an emphasis on diversification, risk adjusted returns and defensive characteristics, enabled by rigorous quantitative and qualitative research.

We aim to beat the relevant benchmarks over as many periods as possible, with less than benchmark volatility and lower drawdowns, across all risk ratings.

The portfolios are built using a fixed strategic asset allocation to match the portfolio's investment objective, the flexibility of the portfolios comes from a fund level through our tactical allocation, depending on market conditions and the appropriate risk metrics.

IMPORTANT INFORMATION

This communication is designed for professional financial advisers only and is not approved for direct marketing with individual clients. These investments are not suitable for everyone, and you should obtain expert advice from a professional financial adviser. Investments are intended to be held over a medium to long term timescale, taking into account the minimum period of time designated by the risk rating of the particular fund or portfolio, although this does not provide any guarantee that your objectives will be met. Please note that the content is based on the author's opinion and is not intended as investment advice. It remains the responsibility of the financial adviser to verify the accuracy of the information and assess whether the OEIC fund or discretionary fund management model portfolio is suitable and appropriate for their customer.

Past performance is not a reliable indicator of future performance. The value of investments and the income derived from them can fall as well as rise, and investors may get back less than they invested.

We provide the DFM MPS as both distributor and manufacturer. Details of our target market assessment can be found in our compliance investment procedures, available upon request. Each fund will be assessed independently, but it is highly unlikely that any one fund held in our portfolio will meet the target market in isolation—detail of why the inclusion collectively will be suitable is included within our research.

The Passive Managed Portfolio Service (Passive MPS) was launched 1 September 2019. The past performance figures include simulated past performance to 01/08/2019 (Portfolios 0-6), 01/05/2021 (Portfolio 7) and 01/11/2022 (Portfolio 8), which are based on the actual performance figures/asset allocation/fund selection of the Portfolio Management Service research provided by IBOSS Limited, from 31 October 2008. Past performance and the simulated past performance is not a reliable indicator of future performance.

The DFM MPS performance and displayed underlying portfolio charge is produced using the preferred share classes, this may differ from platform to platform and is shown net of fund fees only, they do not incorporate platform costs, adviser's client fee or DFM service charge.
